Dear Nathan

Re: Michael Mullins
12 Northwood Street
Camperdown 2050
DOB: 14/11/1959
ph. mobile: 0400438099
Medicare no. 31990344381

I am writing to refer Michael Mullins for ongoing management of his ear wax requiring microsuction in the context of previous left ear exostoses.

Michael has required regular biannual ear wax removal via microsuction. Michael has been attending your rooms approximately twice yearly for this procedure and would appreciate continuation of this arrangement. He finds the service invaluable for maintaining his ear health and preventing complications.

Thank you for your ongoing care of this patient. Please do not hesitate to contact me should you require any further information.

Past Medical History

Active

	Perianal condylomata with dysplasia	
	Cataract	
	Grover's disease
